

# Supply Chain Ready - Offshore Wind

Are you a business leader or in a position to affect change in an ambitious Scottish Company? Are you open to exploring new opportunities in the offshore wind sector? This programme helps you to develop the business capabilities required in order to be in the best position to access this sector and supports you to build an action plan for transition and growth.

Join Scottish Enterprise Specialists and partners, in our **fully funded** Supply Chain Ready programme where we will guide you through a series of facilitated workshops, interactive tools and specialist support. The programme will -

- Introduce you to the opportunities and risks when considering transitioning to the Offshore Wind Sector
- Allow you to work & network with like minded businesses.
- Support you to identify development needs within your own business with the guidance of specialists.
- Provide tools and techniques to support your journey of transition and growth.
- Conclude in the development of an action plan and the identification of projects that can be taken forward with SE & partner support
